

951 / 971 BUTTERFLY VALVE RANGE

As part of our on going product improvement process, a new range of Nitrile lined butterfly valves suitable for gas, oil and water applications has been introduced for Hattersley. The Hattersley Figure 951 and 971 ranges offer an aluminium bronze disc, stainless steel shaft and are available in lever or gearbox versions. For further information please see the attached data sheet or contact us on 0845 604 1790 or tech-enquiries@hattersley.com

We are introducing new part numbers for the products as shown in the table below, the pricing will remain the same. Old part numbers will cease to be available once stocks have been used.

Semi-Lugged Butterfly Valves

| Fig No | Size (mm) | Operator | Old Part Number | New Part Number |
|--------|-----------|----------|-----------------|-----------------|
| 951 | 50 | Lever | 050M00951JND | 050M0C951JND |
| 951 | 65 | Lever | 065M00951JND | 065M0C951JND |
| 951 | 80 | Lever | 080M00951JND | 080M0C951JND |
| 951 | 100 | Lever | 100M00951JND | 100M0C951JND |
